

Aaroh

Always striving to rise high

Winter Edition 2024 Volume 25

Welcome to ...

Blow Blow Thou Winter Wind

William Shakespeare

Blow, blow, thou winter wind,
Thou art not so unkind
As man's ingratitude;
Thy tooth is not so keen,
Because thou art not seen,
Although thy breath be rude.

Heigh-ho! sing, heigh-ho! unto the green holly:
Most friendship is feigning, most loving mere folly:

Then, heigh-ho, the holly!
This life is most jolly.

Freeze, freeze, thou bitter sky,
That dost not bite so nigh
As benefits forgot:

Though thou the waters warp,
Thy sting is not so sharp
As friend remembered not.

Heigh-ho! sing, heigh-ho! unto the green holly...

“Winter, a lingering season, is a time to gather golden moments, embark upon a sentimental journey, and enjoy every idle hour.”

From Principal's Desk...

Dear Parents & Guardians,

In Dr. Giarrizzo's welcome back letter titled #wildcatpride, he highlighted some examples of the pride we all feel for our school community, with student achievement always at the forefront. We also pride ourselves on being a place that exemplifies respect, honour, and care for others. The ultimate expression of this is when we see students take the lead and act as role models. Primary school students never disappoint. Each year we see remarkable examples of students extending kindness and compassion to one another.

We discuss positive, safe, responsible, and respectful behaviour expectations at our opening assemblies with students each year. We explain that every student deserves a safe and supportive environment; one that they are comfortable in; one in which they can thrive as a learner. We emphasize that every individual at SRCS has a role in shaping the environment by making responsible choices and working to understand the thoughts and feelings of others. Ultimately, we want our students to see the process of understanding thoughts, feelings, and perspectives as an opportunity to learn and grow.

As part of this process, we discuss appropriate language and an awareness and sensitivity to language that can be considered

discriminatory. We also outline the difference between bullying and conflict and provide examples of each. We discuss what each student can do to avoid and resolve conflict and be an upstander when others are mistreated. We know that peer relationships, topics of differences between people, and bullying can become the most challenging parts of adolescence. For these topics, we believe parents are the best teachers. With this in mind, we ask that you please consider proactively talking about the ways students can do their part to contribute to a positive environment.

Taking time to learn about, be aware of, understand, and respect differences

- Middle school is a time when young adults are figuring out who they are and realizing that although we have a lot in common, there are some things that make us different. Students are becoming more aware of differences and learning about differences that they did not realize or understand fully in elementary school. Learning to respect differences in who we are and how we think supports a positive environment.

Being aware of language that is offensive, discriminatory, and hurtful

- As students become more aware of differences, they are also learning language used to describe differences. Some of this language can be offensive, discriminatory, and hurtful. Proactive teaching about language will help students avoid using this language. We ask that if you hear such language, you use it as a teachable moment.

Taking responsibility for actions

- We all make mistakes. If students do something that impacts someone else, they need to understand the impact so they can avoid repeating the behaviour. “I was just kidding” and “Other people do it too” are excuses we hope to extinguish. It is also important to take time to recognize that accepting responsibility for doing something hurtful to others is not easy and is commendable.

Respecting personal space

- As students move from childhood to young adulthood the simple understanding that we should not be physical with each other needs to be reinforced. Physical behaviour, playful or not, has no productive place in our learning environment.

Being an ‘upstander’

- The simple act of laughing at someone who is being teased can amplify the negative behaviour.

Similarly, the simple act of walking away, telling a person to stop, or telling an adult, can diminish or extinguish a negative behaviour. Talk with your child about what they can do to remove themselves from negative situations and stand up for those who are targets of negative behaviour.

In his letter, Dr. Giarrizzo challenged everyone to choose kindness. A learning environment that exemplifies respect, honour, and care for others, is one in which learners will thrive and take on the opportunities and challenges that education has to offer. We look forward to challenging students to become high-level problem solvers, critical thinkers, and responsible leaders of tomorrow.

I wish everyone a positive, productive, and powerful 2025 school year!

Warm Regards,
Chandra Shekhar
Principal

Awards-2024-25

Shri Ram Centennial School (SRCS), Indore feels proud to mention that 'Education World India School Rankings' ranked us number 3 in Indore and number 4 in MP under the category of Best Day-Boarding - Cum - Residential Schools in India for the session 2024-25. The School Management congratulated the Principal, staff, students and parents for the stupendous achievement.

PRINCIPAL SRCS FELICITATED

It's a matter of great honour and privilege for SRCS to share that the Principal Mr. Chandra Shekhar Yadav and the School were felicitated under the category of *Super 30 Educators Award* by Athos Edu Solutions' award giving away ceremony *MIMAMSA* on the 26th October 2024 at Hotel Radisson, Indore.

The award aims to honour the Principal and the School for their outstanding contribution in the field of Education. The School Management, faculty, students and parents extend their good wishes for the stupendous academic recognition.

Inter School Sahodaya Samagam

Bal Vigyan (Biology)

Award Category –Best Aim & Utility

Proud students of SRCS bagged the Best Aim & Utility Award in the subject Biology in the Inter School Sahodaya Samagam Bal Vigyan Senior Competition organized at Omni School, on Saturday the 23rd Nov. 2024.

The winning combination comprises Archie Mehta, Nehal Gupta, Nandini Yadav, Prakash Agrawal, Jayaditiya Jadhav and Atharva Naresh. The Principal Mr. Chandra Shekhar congratulated

the mentor Kirti Shelgoankar ma'am and the winners.

Academic Excellence

Academic Excellence is the outcome of meticulous planning, enterprising efforts and sheer will to prove oneself.

Such talent deserves a distinct identity.

To recognise the scholars, SRCS conducted a Felicitation Function in the morning assembly.

All the students, right from Grade III to XII who scored overall 85% and more in Term 1

Examination was honoured by the Principal and the Dean of School Affairs by awarding the Scholar Badges to them.

The Principal appreciated the hard work put in by the brilliant students and also motivated the rest to prove their mettle in the forthcoming assessments.

State Level Table Tennis Tournament

"Victory earned, excellence achieved – Congratulations Rythem on your outstanding tournament win!"

A big congratulation to Rythem Gadiya for securing 2nd position in the State Level Table Tennis Tournament! with incredible skill and determination, Rythem triumphed in a thrilling final to secure the top spot, showcasing his impressive talent. This victory is a testament to his hard work and dedication to the sport. Well done, Rythem—We are so proud of you!

Inter School Sahodaya Samagam Football Competition 2024 (U– 14)

SRCS Shines at the Inter School Sahodaya Samagam Under - 14 Football Competition 2024 winning the coveted trophy defeating DPES with a score of 4 - 1.

Congratulations to our Under-14 boys' football team for emerging victorious! Their exceptional talent, unwavering determination and outstanding teamwork shone throughout the tournament. From the very beginning, the team demonstrated remarkable skills and played with heart, culminating in an exciting final win. We are incredibly proud of

the entire team for their efforts, and this achievement marks a bright future for all. A big congratulation to the team, coaches, and supporters who made this win possible!

Inter School Sahodaya Samagam Cluster IV Interschool Kho-Kho Competition

SRCS recently hosted the prestigious Sahodaya Samagam Cluster IV Interschool Kho-Kho Competition for Under-14 boys and girls. The event saw participation from 10 schools across the region, showcasing the talent and

enthusiasm of young athletes in this traditional sport.

The competition was held in a highly spirited atmosphere, where the students demonstrated exceptional skill, teamwork, and sportsmanship. The event was graced by the motivational presence of the Principal, Mr. Chandra Shekhar Yadav, who inspired the young players with his words of wisdom, emphasizing the importance of hard work,

discipline, and determination in achieving success.

In the boys' category, the winners were SICA School, securing the first position, followed by

St. Norbert School in second place. In the girls' category, DPES emerged victorious, claiming the top spot, with SICA School securing second place.

The event was successfully organised by HOD, Sports, Ms. Radhika Apte, Mr. Deepak Varma and Mr. Akash Chaturvedi, ensuring fair play and accurate scoring throughout the competition.

The Sahodaya Samagam Cluster IV Interschool Kho-Kho competition not only highlighted the athletic talents of the students but also fostered a sense of camaraderie and sportsmanship among the participating schools. Congratulations to all the winners and participants for making the event a grand success!

Congratulations to all participants and Winners!

Celebrations @ SRCS!!

Diwali Celebration @ SRCS

A vibrant spectacle enveloped the entire school in a joyous atmosphere. From the meticulously crafted rangoli designs to the colourful lights that adorned every corner, the premises radiated festive cheer.

Both students and teachers added to the festive spirit by donning traditional attire, hands-on activities including the Diya painting Inter-house competition brought out a healthy spirit of competition.

The celebration was a resounding success, weaving together cultural appreciation,

creativity and a spirit of unity among students and staff.

Navratri Celebrations @SRCS

"Navratras" refer to the nine divine nights wherein the whole cosmos engages in worshipping and celebrating the primordial power of feminism; the mother of the universe – "The Nau Durga". She is the personification of all powers and the very cause of all causes who gives momentum to all the processes and souls as she is the personification of "nature" herself.

It's one of the most ancient festivities wherein people from all around the world adopt varied practices to show their gratitude.

Shri Ram Centennial School organised the "Garba festival" worshipping Goddess Durga for seeking her blessings. Students gracefully danced with rhythmic body movements over

the energetic garba music presented by the Music Dept.

Team SRCS wished everyone a Happy Navratri and also urged the people to believe in the need to work towards 'Women Empowerment' where it's so essential to make women strong and independent for an ever-growing and sustainable society.

Christmas Celebration

Shri Ram Centennial School, Indore is known for its vibrant and inclusive celebration of festivals, and Christmas is no exception. This year too we organized a grand celebration to mark the spirit of Christmas with enthusiasm and joy.

The festivities began with a special assembly

where students participated in carol singing and shared Christmas stories. The school was beautifully decorated with Christmas trees,

lights and other festive ornaments, creating a cheerful atmosphere.

The highlight of the event was the arrival of Santa Claus, who distributed chocolates and spread joy among the students.

Such celebrations foster a sense of togetherness, unity, and joy among the students and staff, promoting values such as love, kindness, and sharing—core themes of Christmas.

Parent - Teacher Meeting

The Parent-Teacher Meeting (PTM) held in the month of December 2024 at SRCS was attended

by the parents of students from Grade Nursery to IX and XI. It was a successful event that achieved its

objectives of enhancing communication, fostering transparency, and soliciting parental input. It provided a platform for parents to actively engage with their child's education and collaborate with the school in shaping their child's future. The event was well-received, and the school looks forward to continuing this positive partnership with parents in the future.

Educational Excursion @ SRCS!!

"SRCSians Explored Uttarakhand!"

Our Grade IX-XII students embarked on an unforgettable Educational Excursion to Dehradun, Haridwar, Mussoorie, and Dhanolti from 11th-17th October.

Exploring Gun Hill Point via Cable Car in Mussoorie, Trekking at Eco Park in Dhanolti
Visiting 'The Mall' - Spirit of Dehradun,

Relishing DJ Night and strolling on the Mall Road, experiencing Sahastradhara's medicinal sulphur water fall, participating in devotional Ganga Aarti at Haridwar.

Our students returned with Happy learning experiences Unforgettable memories & A deeper connection with nature

Kullu - Manali, Amritsar, Wagah border, Chandigarh

An unforgettable trip was organised for the students of grade 6 to 8.

Our students explored the vibrant cities of Amritsar, Kullu Manali, Chandigarh and soaked themselves in their culture and beauty. From the divine Golden temple to the Mountains of Manali and the Shawl factory in Kullu... From Rock Garden to the serene Sukhna

Lake, every moment was filled with joy and discovery.

During the trip students of SRCs Indore discovered that the best lessons come from real-life experiences.

They made memories that are going to last forever!

Unforgettable Trip....

Students of grade 3 to 5 visited Udaipur, Chittorgarh!

Our students embarked on a journey full of exploration, learning, and fun. From hands-on activities to discovering new places, the trip

was packed with exciting moments and valuable lessons.

Highlights included:

The students explored different beautiful places in Udaipur such as City Palace, Saheliyon ki Baadi, Chittorgarh Palace etc.

The trip brought everyone closer.

Our students were enthusiastic and engaged throughout the trip, and it was amazing to see them learning outside the classroom. A big thanks to the school management for making this experience possible and a memorable one!

Annual Day @ SRCS!!

The Annual Day of SRCS was a celebrated on the 22nd of November 2024. The event was a grand celebration of talent, dazzling performances of musical & theatrical presentations imbibing the school spirit. The event was graced by the graceful presence of the distinguished Chief Guest Professor (Dr.) Rakesh Singhai, Vice Chancellor, DAVV, Indore. Mr. Devendra Jain and Mrs. Preeti Jain were the esteemed Guests of Honour. The profile of the Chief Guest was eloquently presented by the Dean of School Affairs, Ms. Sunita Singh, while the profiles of the Guests of Honour were presented by Activity Coordinator Ms. Radhika Apte.

This year's Annual Day theme, "DASHAVATAR," was a mesmerizing tribute to

the ten avatars of Lord Vishnu, beautifully blending rich cultural heritage with the vibrant energy and divinity. The theme was brought to life through captivating performances that showcased the rich values, culture, tradition and the essence of life over ages of Truth & Goodness always prevailing and being victorious over evil.

The Annual Report was presented by the Principal, Mr. Chandra Shekhar Yadav, who took the audience through the school's remarkable journey, highlighting its achievements, the growth of its students, and the collective efforts that have contributed to its ongoing success. His speech was a testament to the dedication of both; students and staff in fostering an environment of excellence.

The event culminated in a ceremonial recognition of the school's brightest stars, with awards and accolades presented to those whose dedication and hard work in sports have made SRCS proud. The students' exceptional performances were celebrated, reflecting the spirit of perseverance and excellence that the institution holds dear.

Student of the Year was awarded to Dhristhi Khemka, a grade XII student.

Cock House Trophy for the Year 2024 - 2025 was bagged by - Newton House

Academic Trophy for the year 2024 - 2025 was awarded to - Newton House and Cultural Trophy for the year 2024 - 2025 was awarded to Edison House.

Congratulations to all Participants!

Pre-Primary Activities

Pre-Primary Class Assembly on Healthy Lifestyle

On the 28th September 2024, our vibrant pre-primary superstars at SRCS Indore had a

fantastic time at their class assembly focused on living a healthy lifestyle!

During the assembly, our little learners explored:

Healthy Eating: Discovering the importance of nutritious food and exploring colourful fruits and veggies.

Yummy Nutrition: Learning about the benefits of colourful fruits and veggies.

Active Play: Engaging in fun movement activities to stay fit and energetic.

Our young learners of Grade 1 and Grade 2 participated in a lively assembly that was all about embracing a healthy lifestyle!

The children engaged in various activities that highlighted the following:

Staying Active: Participating in fun exercises to promote physical fitness and teamwork.

It was a joy to see our little ones excited about making healthy choices! Together, we are laying the foundation for a lifetime of wellness. They also highlight the healthy lifestyles of India, the UK, UAE, and Finland and how different cultures prioritize health and well-being.

We are so proud of our young learners for their enthusiasm and commitment to making healthy choices! Together, we're building a brighter, healthier future.

Fancy Dress Competition on Children's Day

Celebrating innocence & creativity!

Our tiny tots ROCKED the Fancy Dress Competition on Children's Day!

Congratulations to all participants & winners!

Orange Day Celebration @SRCS Indore

“Bright as the orange star falling from the silent sky.” Our young learners lit up the day dressed in shades of vibrant orange! From playful activities to creative crafts, Orange Day was all about exploring the colour through fun and learning.

Celebrating colours help children connect with their surroundings, build vocabulary, and express themselves creatively. We loved seeing their bright smiles and enthusiasm!

“Winter Wonderland: A Nature Walk to Remember”

Discovering the Beauty of Winter

Our Nursery grade embarked on a thrilling Nature Walk, uncovering the magic of the season! Wrapped up warm in cozy coats, our little adventures explored the school garden, marvelling at vibrant winter flowers, crunchy leaves and sweet bird songs. This enchanting experience sparked curiosity, creativity and a love for nature among our young explorers.

Shloka and Bhajan Competition @ SRCS INDORE

It was a beautiful celebration of our rich cultural heritage showcasing the incredible talents of our young learners. The event brought together a harmonious blend of spirituality, music, and devotion, creating an atmosphere of reverence and joy. Each child's performance was a reflection of their dedication and enthusiasm, as they confidently recited the shlokas with perfect pronunciation and offered soulful renditions of traditional bhajans.

This event also allowed the students to improve their memorization skills, voice modulation, and stage confidence.

HALLOWEEN DAY

Halloween, celebrated on October 31st, is a fun and spooky holiday marked by costumes, trick-or-treating, and haunted houses. Rooted in ancient Celtic traditions, it originally honoured the end of harvest and the arrival of winter. Today, people embrace the eerie spirit by dressing up as ghosts, witches, and other creatures, while children go door-to-door collecting candy. Halloween is a time for playful frights, pumpkin carving, and festive gatherings, making it a beloved occasion for all ages.

"Tiny ghosts and happy pumpkins!"

Pre celebrations Halloween day @SRCs Indore.

Our little ones transformed into adorable superheroes, pumpkins, and more, making this year's Halloween celebration a truly magical event!

From tiny ghosts to happy pumpkins, the joy on their faces lit up the room.

Our Halloween celebration was not just about costumes and treats; it was about building joy, creativity and togetherness.

"Our little monsters had a fang-tastic time celebrating Halloween!"

Square Shape Day Fun

Nursery kids had an amazing time celebrating Square Shape Day! They were shown square-shaped items, including adorable square windows, chessboards, biscuits, clock, and other creative square things. The day was full of learning and joy as the children explored this shape through interactive activities, singing square shape songs, and colouring. It was wonderful to see their excitement and

curiosity grew, as they discovered squares in everyday objects!

Creativity Unleashed!

English Storytelling competition and Show and Tell at SRCS, Indore.

The event was aimed to foster creativity, boost confidence, and enhance language skills among Pre Primary learners through the art of expressing themselves.

Our little charmers made use of expression, voice modulation, and gestures to express themselves.

Garba Celebration

Little feet, big smiles, and endless joy....

The tiny tots, full of energy, danced to the rhythmic beats of traditional Navratri music.

Guided by their teachers, they joyfully twirled and clapped, creating a circle of happiness and togetherness. Their innocent smiles and eager steps added a special charm to the celebration. It is a beautiful way to introduce young children to the rich cultural heritage of India. The festivities help instil values of community,

devotion, and tradition, all while ensuring the children have a fun-filled and memorable day

Pre-Primary PTM

"We value parental involvement in shaping our students' futures. Together, we nurture young minds."

Nursery to Grade 2 Parent-Teacher Meeting (PTM) was a huge success! Teachers shared student progress reports, providing valuable insights to parents. Open discussions fostered mutual understanding, promoting collaborative education. Parents praised the informative sessions, appreciating teachers' dedication.

We're committed to collaborative education, empowering our students' potential.

Significance of Mathematics in Everyday Life

Mathematics, often called the "universal language," is a fundamental subject that permeates every aspect of our lives. From managing finances to solving real-world problems, math equips individuals with the tools to analyse, interpret, and understand the world.

What is Mathematics?

Mathematics is the science of numbers, shapes, and patterns. It involves various branches like arithmetic, algebra, geometry, calculus, and statistics. Each branch addresses specific aspects of understanding and quantifying phenomena in nature, technology, and human interaction.

Applications of Mathematics

1. **Daily Life:** Mathematics plays a crucial role in everyday activities such as budgeting, cooking, shopping, and time management. For example, when we calculate discounts during a sale or measure ingredients for a recipe, we use math.
2. **Technology and Innovation:** Modern advancements in technology, such as artificial intelligence, machine learning, and data science, rely heavily on mathematical algorithms. Engineers and scientists use math to design bridges, airplanes, and software.
3. **Business and Finance:** Financial literacy is built on mathematical concepts. Individuals and businesses use math to prepare budgets, calculate interest, assess risks, and analyse investments.
4. **Healthcare:** Mathematics contributes significantly to medical sciences, from

calculating dosages for medications to interpreting complex diagnostic data like MRIs and X-rays.

5. **Space Exploration:** The calculations involved in space missions, like determining rocket trajectories or predicting planetary positions, highlight the power of mathematics in exploring the universe.

Importance in Education

Mathematics fosters logical thinking, problem-solving skills, and analytical abilities. It teaches students to think critically and make reasoned decisions. Math also strengthens memory, attention to detail, and the ability to focus on complex tasks.

Challenges in Learning Mathematics

Many students struggle with math due to a fear of numbers or difficulty grasping abstract concepts. However, innovative teaching methods, such as using real-life examples and interactive tools, have made learning math more engaging and accessible.

Conclusion

Mathematics is more than just a school subject—it is a powerful tool for understanding and shaping the world around us. Its applications are boundless, influencing careers, innovations, and personal decision-making. Embracing maths not only enhances intellectual growth but also empowers individuals to tackle challenges with confidence.

By Yajnesh Agrawal IV A

Indian Education System

The Indian education system is the oldest and largest in the world. It has produced so many genius minds that are making India proud all over the world. The competition among children is growing day by day. Education is important because it gives people baseline skills to survive as adults in the world. In India, our education system focuses on both;

academic and extra-curricular activities which also help children to make their future bright in other fields like sports and many more. The literacy rate of India went from 18.32% in 1951 to 76.23 in 2022. The progress of India in terms of education led to the development of the country with less unemployment.

The Magic of Reading

Reading is like opening a door to a magical world full of endless possibilities. Every book has a story to tell, whether it's about brave heroes, faraway planets, or real-life adventures. When you read, you can travel to new places, meet interesting characters, and learn incredible things—all without leaving your chair. Books help us grow in so many ways. They teach us new words, improve our imagination, and show us how to think creatively. Reading also helps us understand how others feel, making us kinder and more thoughtful. Through books, we can explore

ideas and emotions that help us learn about ourselves and the world around us. Reading is also a wonderful way to relax. If you're feeling stressed or bored, a good story can make you feel calm and happy. Whether it's a comic book, a mystery, or a fairy tale, there's always something fun to discover in a book. So, pick up a book today! Reading is an adventure waiting for you, and it's a magical way to grow, dream, and explore. Who knows? The next book you read might just change your life.

Artificial Intelligence

Artificial Intelligence is a broad field of study that deals with the development of intelligent machines that can perform tasks that typically require human intelligence such as recognizing speech, making decisions and understanding natural language. It is a rapidly evolving field that has the potential to transform virtually every industry and aspect

of our lives. AI platforms have become both; very powerful and extremely useful. AI systems rely on a range of technologies including machine learning, robotics and computer vision. Machine learning is a subset of AI that involves teaching computers to learn from data...

By Avani Mishra VII A

"What we are, matters more than what other people think of us"

The true measure of an individual doesn't lie in what others think of him, but what he himself believes he is. External influence may affect our choices but we must know what we truly want. By making our own choices, we

cultivate a self-worth which is dignified, resilient and unshakeable. Ultimately the only opinion that matters to us is our own, so we must navigate through life's challenges regardless of what others think.

By Amishi Jain VIII B

Climate Change and Sustainability

It remained urgent global concerns in 2024, with discussions focusing on innovative strategies to combat rising temperatures, resource depletion, and biodiversity loss. Key efforts include transitioning to renewable energy sources, achieving decarbonisation goals, and implementing green industrial policies to meet 2025 climate deadlines. The effects of climate change, such as extreme weather conditions and record-breaking temperatures exacerbated by El Niño,

highlight the need for immediate action. Sustainability initiatives now emphasize reducing carbon footprints, promoting circular economies, and integrating indigenous knowledge into environmental planning. Companies and governments are under increasing pressure from both; activists and the public to accelerate progress on climate commitments and adopt more sustainable practices.

By Nishk Raj Gharoo IX B

The Role of Technology in Studies

Today technology is a big part of life including education. From smartphones to online learning it's changing how we learn making it more interactive accessible and personal.

One key benefit is easy access to tons of information. In the past students had to rely on libraries or textbooks but now the internet offers endless resources. Websites like Khan Academy, Coursera, YouTube and apps like Duolingo provide free courses tutorials and language learning tools allowing students to learn at their own pace.

Technology also makes studying more engaging. Tools like educational apps virtual labs and gamified platforms like Kahoot turn

boring lessons into fun experiences. For example, math apps help solve problems step by step and science simulations let students do virtual experiments. Another advantage is collaboration. Technology helps students work together on projects using tools like Google Docs or Microsoft Teams. Virtual classrooms and forums also let students interact with teachers and peers outside school hours.

In conclusion technology plays a big role in education offering new ways to learn and collaborate. If used well it makes studying more efficient and fun.
